

WorkCare

Premier Occupational Healthcare Services

Workcare Occupational Healthcare Services provides employers complete employment-related medical services to assist employers in the management of employee healthcare needs.

Services include: care of work-related injuries, physical exams and medical screenings related to employment, employee wellness and preventative services. Our medical team members are experts in helping employers solve fitness for duty and many other employee healthcare concerns of employers.

WorkCare services are provided at each of the four Immediate Healthcare Centers, located in Bridgeport, Shelton, Fairfield and Monroe, making **Workcare** the area's largest network of occupational healthcare providers.

WorkCare and the Immediate Health Centers are members of St. Vincent's Health System, bringing expert and compassionate care to our community...

Workcare Services

Workers' Compensation Care

WorkCare specializes in providing care of occupational injuries, with an objective to returning employees back to duty as soon as possible. Our highly experienced medical team provides expert, compassionate care, while working directly with employers to recommend modified duty assignments as appropriate, thus reducing lost work-time. Our **Coordinated Care Approach** provides valuable guidance to employers in minimizing disruptions to workflow and productivity as the employee recuperates from the injury. Treatment is enhanced through use of our physical therapy services as indicated.

Physical Exams for Employment

Employee screening is a cost-effective means for employers to control their employee healthcare expenses. By performing a physical assessment prior to starting work, the employer can gain a high level of confidence that the employee is medically fit to perform their job duties.

In addition, the examination process is helpful in revealing any past or current medical issues, which may impact on job function, future workers' compensation claims and overall employee productivity. All exams can be custom-tailored to meet the employer's exacting needs. In addition to the physical exam, screening can also include:

- Hearing
- Lung Function
- EKG
- Laboratory Tests
- X-rays
- Drug and Alcohol Screening

Consultative Services

WorkCare serves as a resource to employers in several additional ways:

- Plant Safety Tours
- Employee Health Program Development
- Employee Fitness for Duty Consultations
- Bloodborne Pathogens Program Management

Special Examination Services

Employers rely upon **WorkCare** to keep their company in compliance with the many employee screening and fitness requirements.

Regulatory compliance and occupation-specific exams are provided for many industries and occupations including:

- Firefighter and Police Fitness
- Commercial Driving CDL Exams
- Healthcare Employees
- Hazardous Materials Handlers
- Food Service Employees
- Child and Adult Daycare

Substance Abuse Testing Services

Testing employees and candidates for drugs and alcohol has become a centerpiece in the employee screening process. **WorkCare's** commitment to employers is to perform this important service with the utmost in care and quality assurance and to provide reliable and legally-defensible results.

WorkCare follows established Federal guidelines concerning the specimen collection, evaluation and reporting process.

Additional services are available including:

- Medical Review Officer
- DOT Drug Testing Compliance Services
- Random Drug Test Selections

Breath Alcohol Screening

WorkCare provides Department of Transportation compliant breath alcohol screening services, utilizing approved testing equipment and certified Breath Alcohol Technicians. Screenings may be performed as part of a DOT regimen and may also be utilized to address fitness for duty and reasonable cause concerns.

Vaccination Services

Vaccination and immunization services are provided to meet our clients' needs, such as for international travel and bloodborne pathogens (Hepatitis-B) requirements.
